MCX Certification Course
& Training Program
from CommodityIndia.com

Analysts across the world are now betting on commodities as the latest big money spinner. The commodities market in India is on the threshold of a new take off. In the second year of its commencements, future trading in commodities in India has crossed an annual turnover of Rs. 5.710 billion, and is estimated to cross the Rs.20.000 billion marks during 2006 fiscal. CommodityIndia.com and Multi Commodity Exchange of India Ltd (MCX) are proud to announce the 3 months "DIPLOMA IN COMMODITIES MARKET" program.

About MCX

MCX is independent and demutualised multi commodity exchange and has permanent recognition from the Government of India for facilitating online trading, clearing and settlement operations for commodity futures markets across the country. MCX is led by an expert management team with deep domain knowledge of the commodity futures markets. Through the integration of dedicated resources, robust technology and scalable infrastructure; since inception MCX has recorded many firsts to its credit. Key shareholders of MCX are Financial Technologies (India) Ltd, State Bank of India, NABARD, NSE, and select public and private sector banks.
